Who we are

Incorporated in 1965 Featherlite is one of the leading furniture manufacturing organization in India today, providing complete office furniture solutions for all segments of the market through its strong base of direct and franchisee offices present across 62 locations in India.

Featherlite Core expertise lies in manufacturing and marketing extremely innovative, cost effective and customized office furniture such as modular work stations, chairs, partitions, desks, conference tables, educational, laboratory, retail furnitur, soft seating and fixtures.

Featherlite has demonstrated Execution of mega and multi location projects without compromising on requirements of the customers. The company manufactures more than 50,000 chairs and 12,000workstations in a month. Operating from factory space spanning more than 3 lakh sq. feet, the company has over 10,000 esteemed customers pan India including giants like Cognizant, Mercedes, Hindustan Unilever, Caterpillar etc.

over **8 million** Chairs and

20 lakh Workstations installed

over **50 million** sqft of office space fitted across India

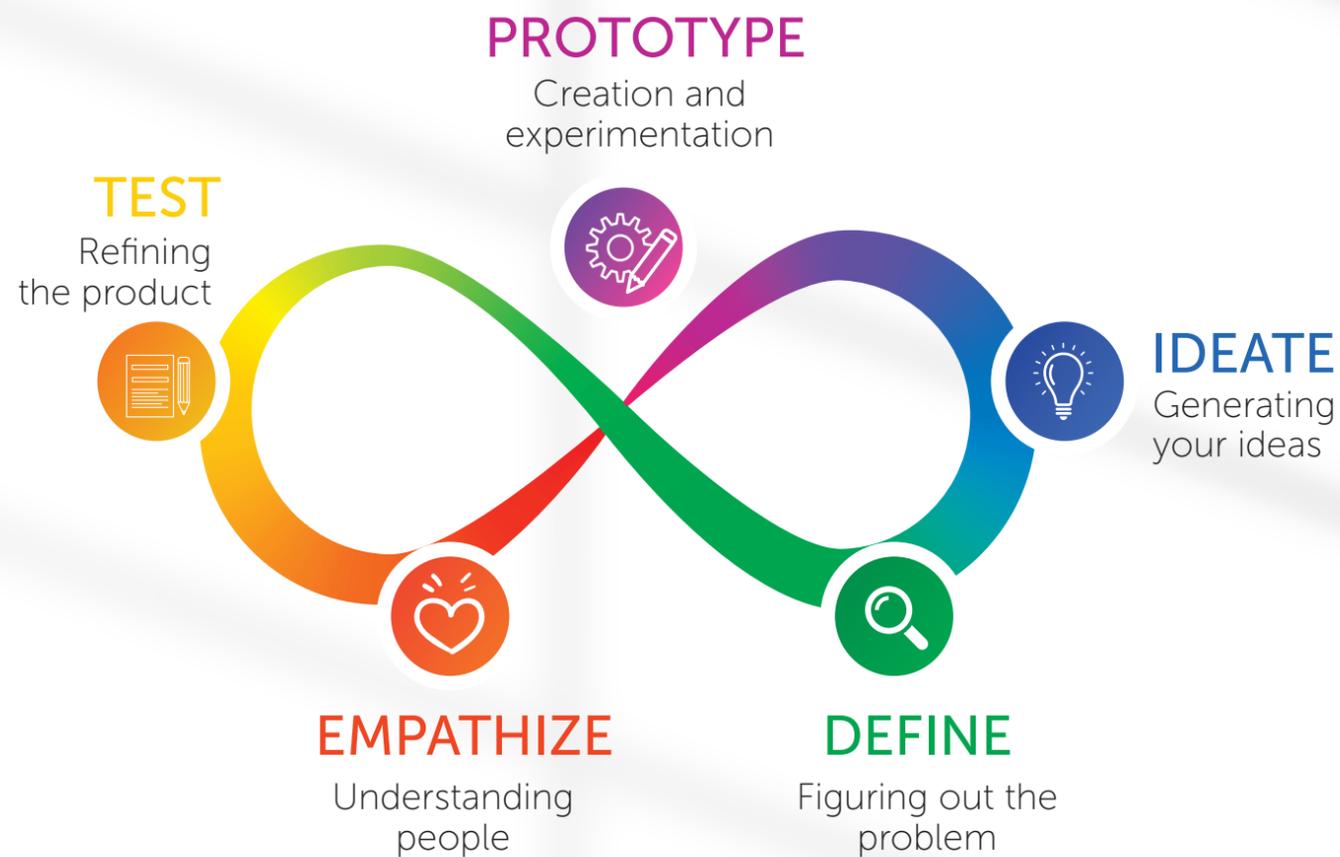

over **20,000** corporate customers across India

over **4.25 lakh** sqft Factory space

over **1lakh** sqft Warehousing space

DESIGN THINKING

Global Standards & Certifications

Featherlite is a member of BIFMA and is one of the leading Indian brands offering environmentally sustainable products as per ANSI/BIFMA e3-2014 standards. BIFMA compliance gives manufacturers, suppliers, architects, designers and government agencies a benchmark for production of sustainable office / institutional furniture and seating products. This mark establishes performance criteria that address environmental, economic and social aspects throughout the supply chain.

Our commitment towards quality industrial practices, environmental and social impact

Green Guard Gold certification from UL Environment indicates that material process or finished product meets extremely rigorous standards for low emission of volatile organic compounds (VOCs)

Major Educational Clients

100% Solar

Featherlite, besides being a leading Furniture Manufacturer in India is also a responsible Corporate Citizen. The Company is one of the first manufacturing unit in the state of Karnataka to not only sign an MOU with the State Government but also to implement and generate 1 MW Solar Rooftop Photovoltaic system (SRTPV) on an industrial building.

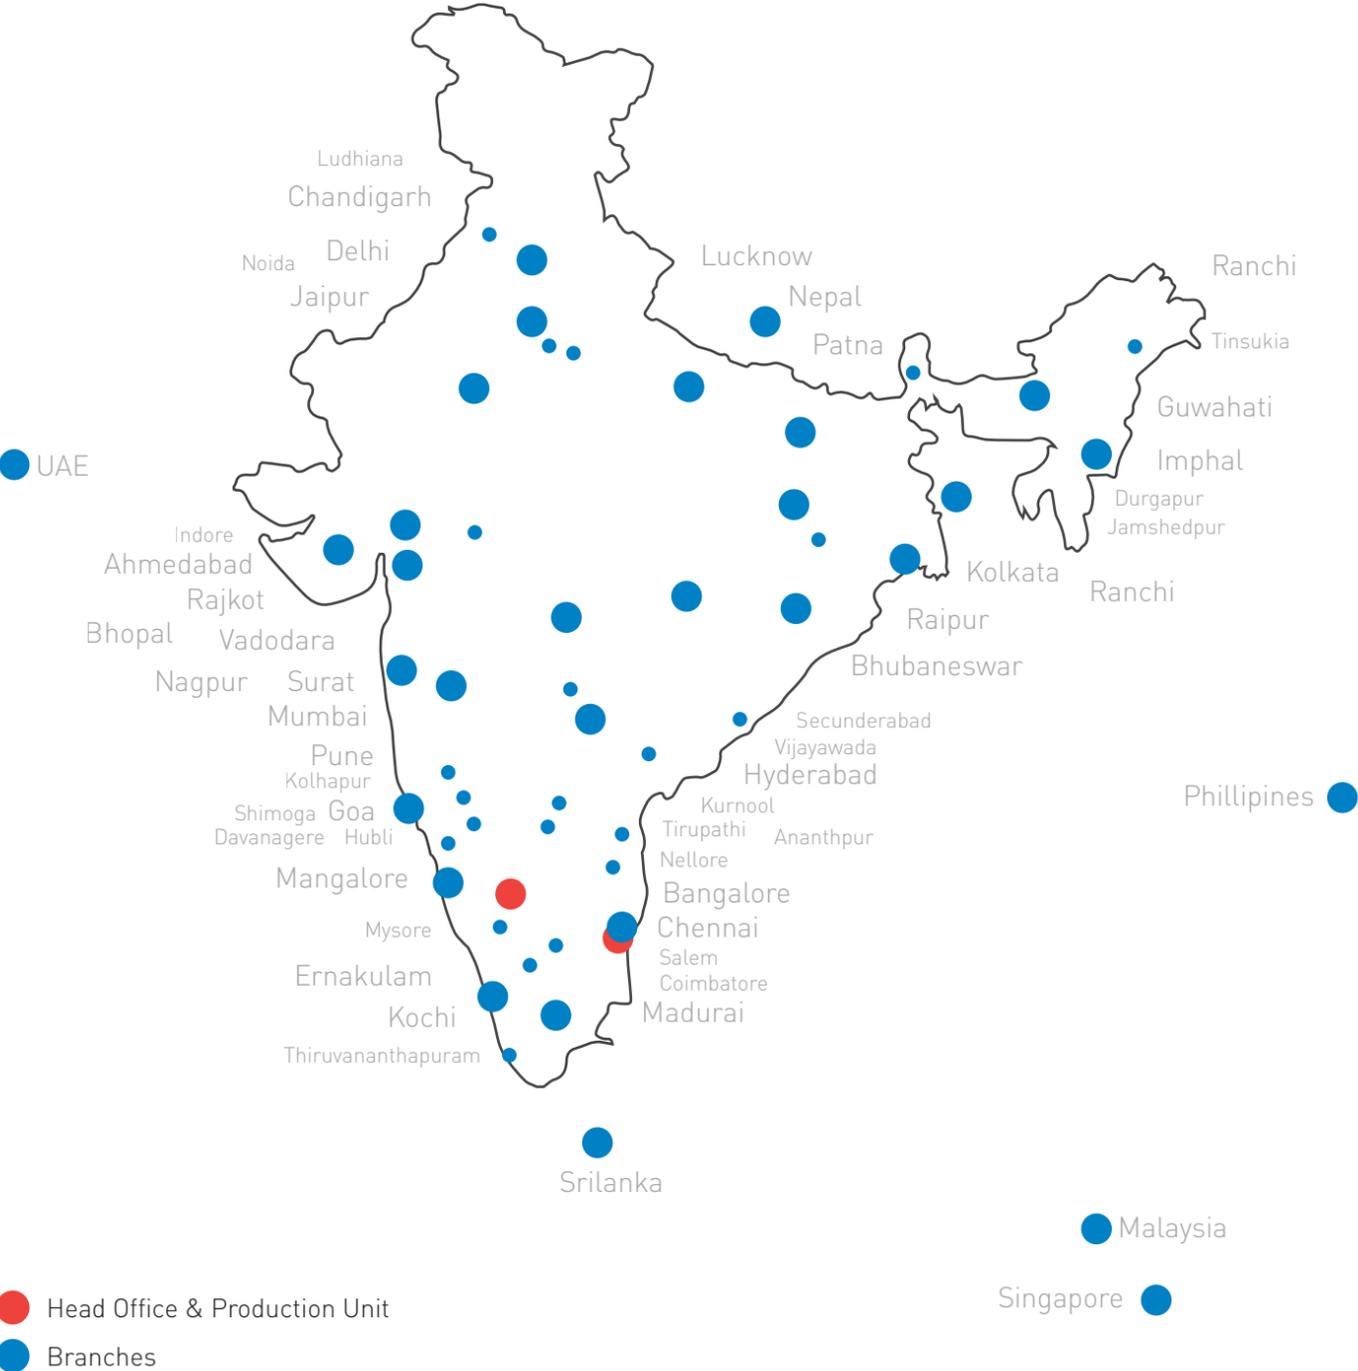

The "State of the Art" manufacturing unit located at Hejjala, 20km from Bangalore has a rooftop area of 1 Lakh sq. ft. The Company has utilized every available roof space including canteen, two wheeler stand, car parking roof and canopies besides the main manufacturing unit in order to maximize the power generation & generates over 1MW of Solar Power.

A total number of 3,000 solar panels each generating 320Wp of power per day and 16 string invertors support the power generation and transmission to Power Receiving Yard. The system has been integrated with state power supply board and surplus power generated is fed into the grid. The system will produce 1.5 million units per annum of which 0.5 million units will be fed into the grid lighting scores of house holds. This major initiative by the company has reaffirmed Group's commitment to minimizing environment degradation by reducing Carbon Footprint and helping the Government to achieve "Electricity for All" by 2020 goal set by the Prime Minister.

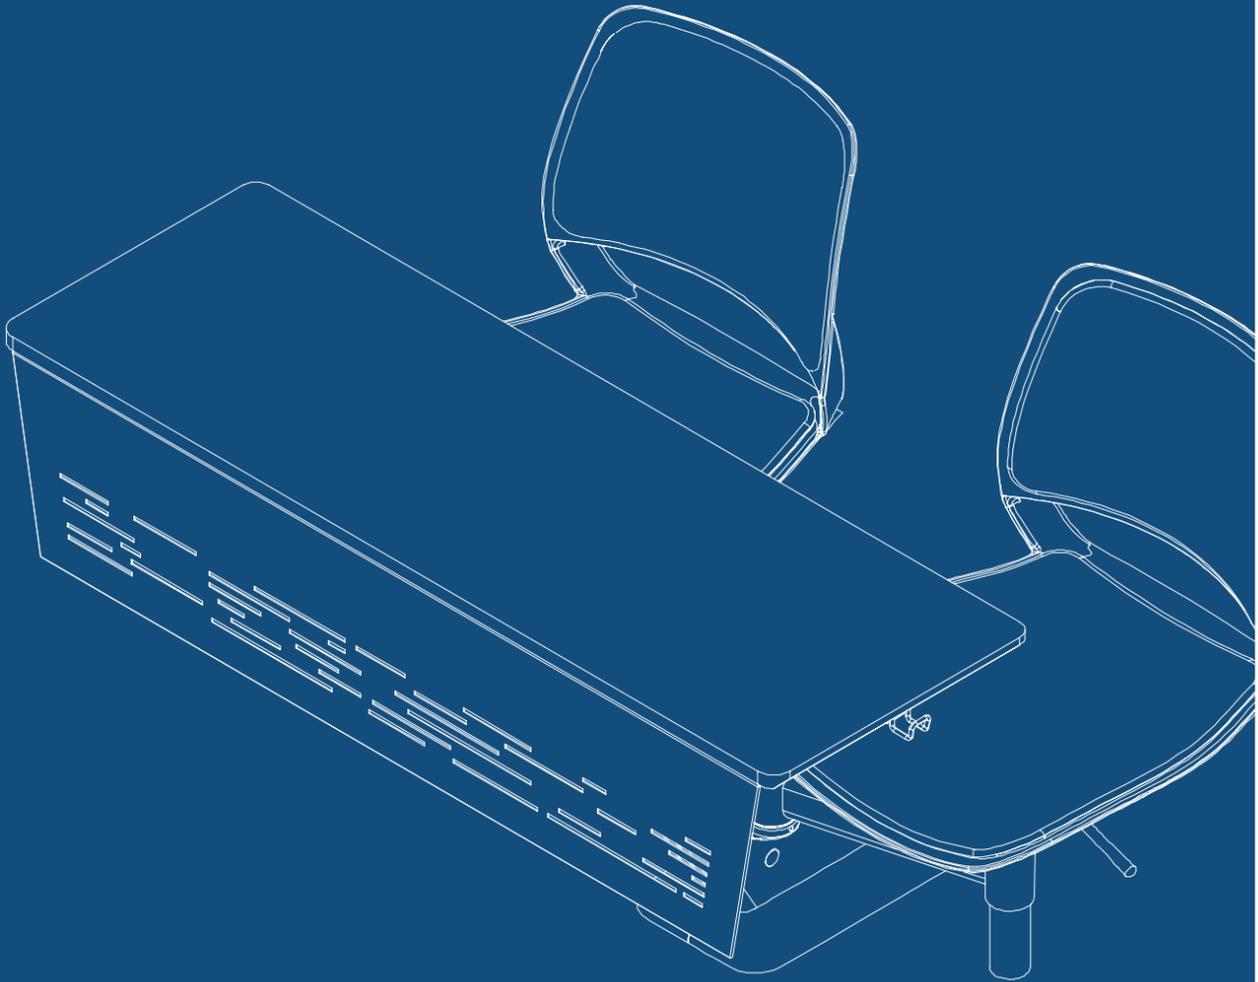

Client logos are registered trademark of respective companies and these are used here for client list representation purpose only.

GRADUATE

Featherlite Learning brings forth a seamless blend of academia and innovation, curating an ideal milieu for continual knowledge assimilation. Rooted in our exhaustive educational and interactive learning space research with ergonomics, we possess the prowess to cater to a spectrum of learning aptitudes. Through synergistic partnerships with esteemed educational institutions and organizations, we conscientiously assess outcomes, channelling deep insights to design human-centric solutions.

Our products, fostering holistic well-being and unparalleled engagement in the pursuit of knowledge, harmonize seamlessly with our integrated, adaptable seating and table system. Crafted from a synergy of steel and aluminum, this load-bearing structure offers flexibility, sturdiness, and effortless installation, ensuring a transformative learning experience. With its seat edge curvature, it delivers a comfortable sitting experience that facilitates smooth blood circulation, rendering it perfect for the sharing of knowledge.

BENEFITS

- Premium design using a combination of aluminium, steel & plywood.
- Ergonomic design ensures correct posture for writing, reading & using a laptop.
- Set of front, middle & rear seats. Middle unit is a combination of desk & seat optimising space.
- Option of power sockets under the desk for usage of laptops etc.
- Available in 2, & 3 seater combinations.
- Straight. Adaptable to stepped floor plans upto 200mm

KURV

Our designs boast highly mobile and adaptable furniture, apt for swiftly transitioning between diverse learning modes, catering to the students' wide-ranging requirements. This dynamic furnishing ensures seamless shifts between individual tasks, collaborative projects, group dialogues, and interactive engagements.

Among these innovations, the Kurv Class product stands out, featuring a curved rotatable table top aligned with the classroom's curvature. It suits both flat and step-floor settings, accommodating concave and convex seating layouts, complete with modular design and easy assembly. This facilitates an optimal classroom arrangement that harmonizes with our commitment to versatile and engaging learning spaces.

TAURUS

In the pursuit of optimal learning, meticulous design shapes the physical environment for co-learning, co-creation, and open discourse, unlocking active learning's full potential. Deliberate crafting renders the space conducive to collaborative pursuits, inspiring student engagement, idea exchange, and collective knowledge construction. Flexibility reigns supreme in the layout, fostering adaptability through versatile furniture arrangements and dedicated zones for group endeavors, brainstorming, and dynamic dialogues.

Introducing the "TAURUS Class" product: a robust marvel with a powder-coated metal understructure, a 25mm thick Prelam particle board tabletop, and an 18mm bookshelf. Metal brackets cloak the bookshelf's sides; options for 2 or 3-seater combinations include default bag hooks, modular, flat-pack, and knock-down design, catering to peer-to-peer learning and reconfigurable study. This DIY setup not only saves space but also maximizes your investments..

TOUGH TOP

PHOENIX

School furniture is pivotal in shaping students' learning experiences. Modern designs focusing on individual student needs have proven beneficial by fostering collaboration, enhancing comfort, stimulating creativity, and boosting productivity. Flexible and ergonomic furniture solutions empower educational institutions to customize learning spaces, facilitating seamless transitions between diverse teaching methods. The Featherlite Phoenix educational furniture table exemplifies this approach, offering innovative features like a metal bag hook, metal modesty panel, and a convenient bookshelf.

These additions enhance organization and efficiency in the classroom, addressing both practical and storage needs. Moreover, the table provides the option to integrate electrical components, supporting contemporary educational methods through seamless technology integration. The Featherlite Phoenix table represents a significant stride in creating student-centric, conducive learning environments. Its adaptability resonates with the changing landscape of education and how students interact with learning materials, making it an ideal choice for modern classrooms.

KRYPTON

Educators and school administrators are continually seeking innovative ways to improve student engagement, productivity, and well-being. Often overlooked, school furniture plays a vital role in creating dynamic and student-centric learning environments. In this transformative shift, the "Krypton" desk and bench system emerges as a cutting-edge solution. The "Krypton" features robust end frames crafted from 25mm square feet of durable 16-gauge material, supported by 25mm square cross beams.

This design combines efficiency and long-lasting reliability, aligning with cost-effectiveness. Versatility is a key attribute of the "Krypton" product, offering the choice of attaching a bookshelf to cater to individual preferences and classroom requirements. Moreover, the "Krypton" prioritizes student comfort and convenience with its slanted backrest and tabletop, ensuring enduring support during extended study sessions. This design allows students to maintain focus without the discomfort that can hinder their learning experience.

SLICK

Modern school furniture places a strong emphasis on ergonomics and student well-being. The "Slick Series" is a versatile furniture solution designed to prioritize comfort and practicality. Its agile design includes high-pressure aluminum die-cast connectors for strength and flexibility in assembly, while its flat packaging simplifies setup.

Additionally, the "Slick Series" offers practical features like a wire tray for storage, a well-thought-out stationery tray, and a convenient bag hook welded onto the table's side beams. These elements enhance usability and comfort in the learning environment. This series doesn't just focus on aesthetics; it embodies holistic comfort and practicality, aligning with the belief that an ideal learning space should promote comfort and effective knowledge absorption. Adjustable components cater to individual student needs, fostering a sense of ownership over the learning experience.

POLARIS

Transform your educational environments into inspiring spaces through the infusion of modern design principles, fostering a holistic atmosphere that blends seamlessly. This integration of contemporary aesthetics and functionality is a key to shaping educational spaces that not only facilitate learning but also promote a sense of inclusivity and engagement. A prime example of this innovation can be seen in the incorporation of forward-looking furniture solutions, such as the versatile Polaris.

By embracing the Polaris within the premises of educational institutions, a dynamic shift takes place, creating vibrant and interactive classrooms where student participation unfolds naturally. The Polaris collection itself can be viewed as a work of art, with its innovative features and designs contributing to an overall aesthetic enhancement of the learning environment. One of the remarkable aspects of the Polaris series is its ingenious assembly alternatives, eliminating the need for traditional grouting processes.

SIRIUS

In the dynamic landscape of education, the influence of innovative school furniture transcends its utilitarian function, embodying a transformative power that not only shapes spaces but also ignites students' creativity and magnifies their productivity. By seamlessly integrating creative seating alternatives like bean bags, standing desks, and inviting reading corners, a tapestry of alternative learning environments emerges, each tailored to accommodate diverse learning modalities and individual preferences. These unconventional seating configurations act as potent catalysts, igniting the fires of inventive thinking, championing active participation in the learning process, and sparking the faculties of critical analysis.

By embracing and implementing such innovative seating paradigms, educational institutions create a rich ecosystem that not only fosters creative thought but also empowers students to venture into uncharted intellectual territories. Enter the Featherlite furniture education table "SIRIUS," a testament to this paradigm shift. Boasting straight legs outfitted with castor wheels, "SIRIUS" epitomizes agility, offering unparalleled maneuverability and adaptability to varying classroom configurations. Its aluminum die-cast structure symbolizes durability and modernity, while the ingenious interlock system for the upper bench underscores its commitment to convenience and practicality.

SIRIUS - SCREEN

The profound impact of innovative school furniture reaches well beyond its utilitarian function, as it possesses a unique ability to not only enhance functionality but also spark students' creativity and elevate their productivity. By incorporating inventive seating options like bean bags, standing desks, and inviting reading corners, educational spaces are transformed into havens that cater to various learning styles and individual preferences. These unconventional seating configurations act as powerful catalysts, infusing a spirit of innovative thinking, fostering active engagement with the learning process, and invigorating critical thought processes.

Enter the Featherlite furniture education table "SIRIUS," a testament to this evolving educational ethos. With the added feature of exam screens – adaptable privacy partitions ideal for organizing examinations – "SIRIUS" presents a versatile and convenient solution. Featuring straight legs equipped with castor wheels, this furniture piece embodies agility, allowing for easy re-configuration to accommodate changing classroom layouts. Its aluminum die-cast structure speaks of durability and modern aesthetics, while the smart interlock system for the upper bench underscores its focus on user convenience and practicality.

LEAF

Experience the ultimate evolution in seating with the Featherlite Leaf series – a groundbreaking collection that redefines utilitarian chairs by seamlessly blending style and functionality. Combining lightweight construction, remarkable versatility, and an affordable price point, the Featherlite Leaf series sets a new standard in ergonomic design.

With a design that marries understated simplicity and refined elegance, the Featherlite Leaf chairs are a testament to sophisticated taste. Their minimalistic aesthetic is a perfect fit for a variety of settings, from professional office spaces to cozy cafe corners.

Discover the convenience of low-maintenance seating that adapts effortlessly to changing needs. The Featherlite Leaf chairs excel in various domains, from creating conducive learning environments in academic institutions to boosting productivity in contemporary office projects, and even complementing the ambiance of trendy cafes.

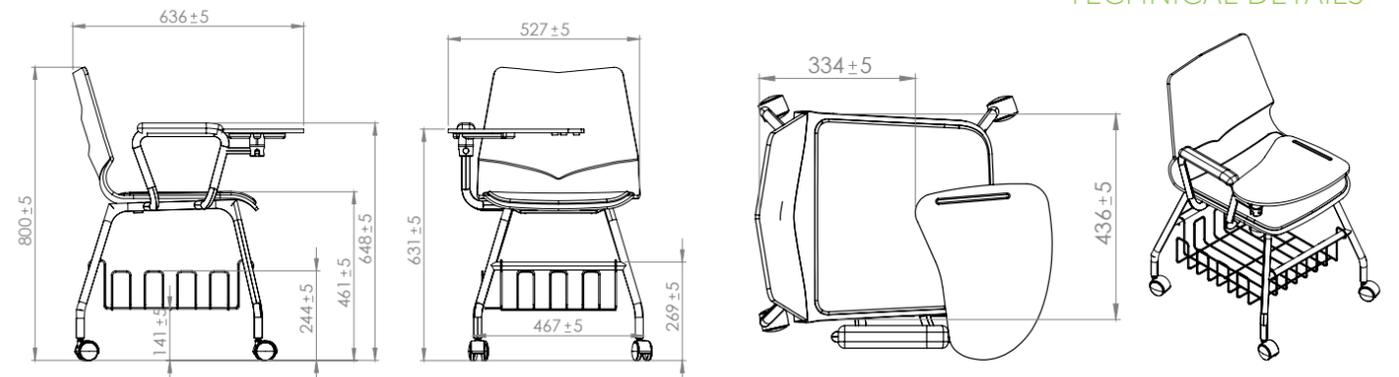

Invest in more than just chairs; invest in a lifestyle that embraces modernity without compromising on practicality. The Featherlite Leaf series – where innovation, comfort, and style converge to redefine your seating experience.

Leaf with Book Rack

TECHNICAL DETAILS

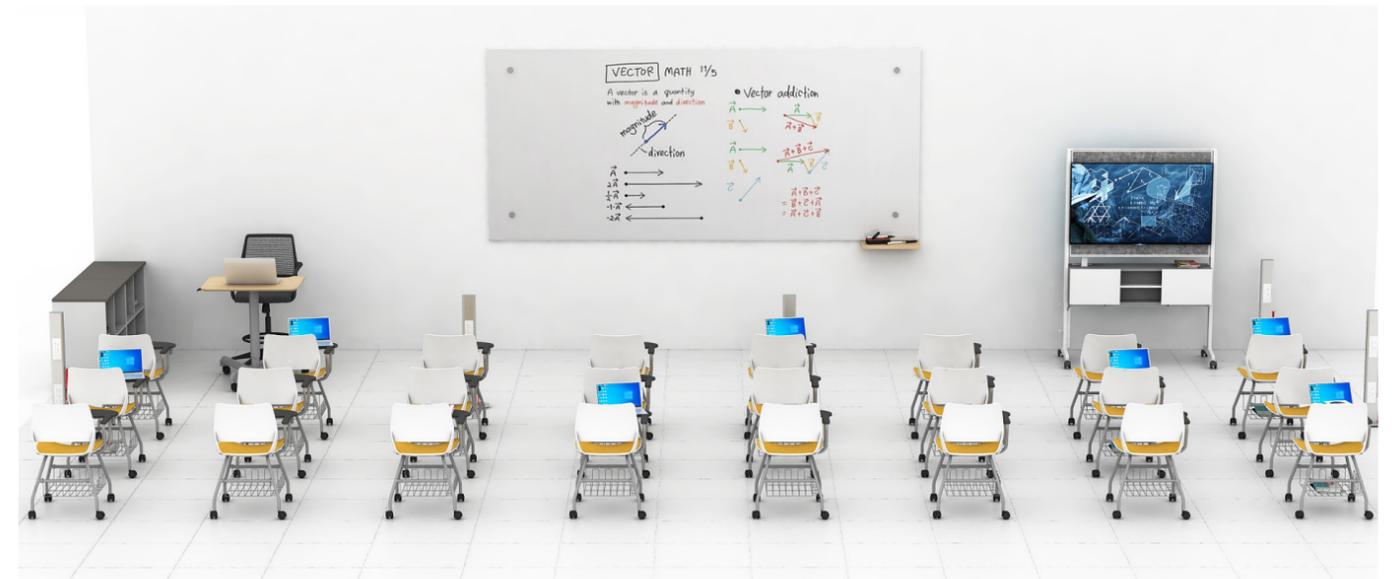

LOOP

Recognizing the pivotal role school furniture plays in shaping the educational journey of students underscores the significance of this aspect of the learning environment. The transition from rigid, one-size-fits-all furniture to contemporary designs meticulously tailored to prioritize the diverse needs of students yields demonstrably positive outcomes in terms of fostering collaboration, enhancing comfort, stimulating creativity, and boosting overall productivity within the classroom.

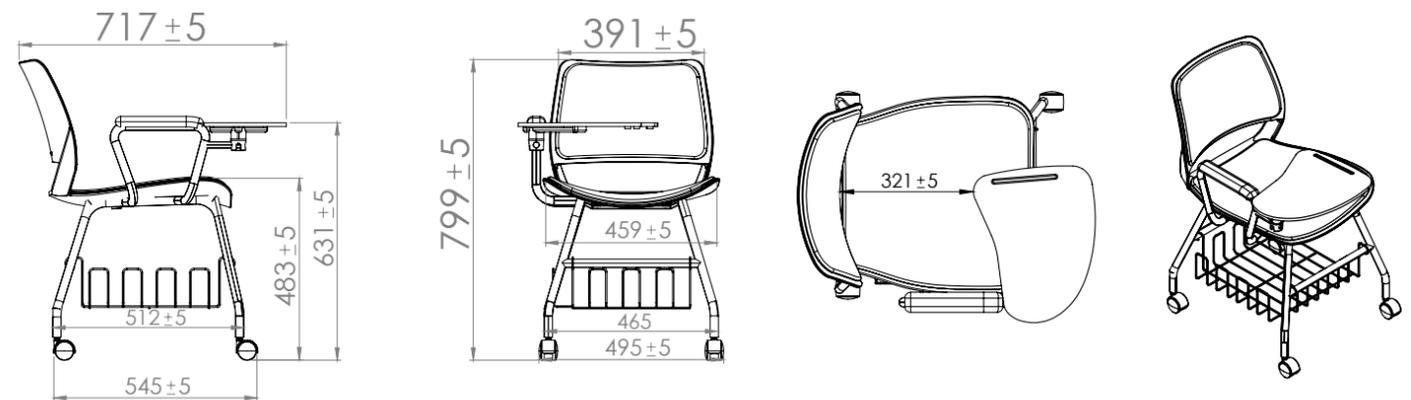

By embracing the concept of flexible and ergonomic furniture, educational institutions provide students with a tangible means to assert ownership over their learning spaces, seamlessly adapt to a range of teaching methodologies, and actively participate in their educational pursuits. In this spirit of innovation, the introduction of the Magna Linear classroom chairs stands as a testament to the evolution of educational furniture. These chairs embody the ideals of convenience and versatility by being foldable and stackable, facilitating easy arrangement and storage.

LIBRARY

Introducing our innovative library furniture collection, where form meets function seamlessly. Recognizing that libraries serve as more than just spaces for individual study, our modern library furniture actively promotes collaboration and social engagement. Through thoughtful design elements like communal tables, lounge areas, and modular seating, our library furniture encourages group work, brainstorming sessions, and informal conversations among visitors. These collaborative spaces create an environment that facilitates the sharing of knowledge, encourages creative exchanges, and fosters the formation of meaningful connections within the community. By embracing these features, our modern library furniture transforms libraries into dynamic hubs where individuals can engage with others, exchange ideas, and build relationships.

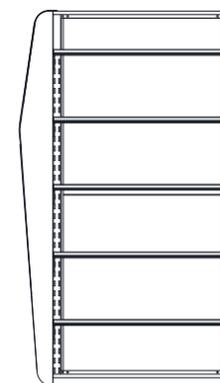

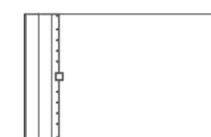

GUIDE

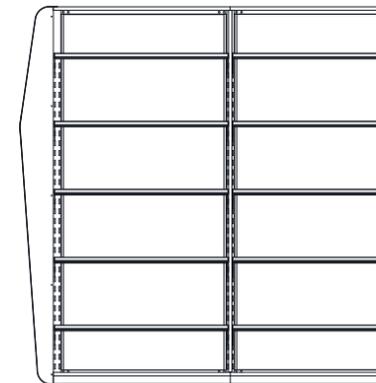

Introducing the star of the Library Range, "Guide". Designed to perfection and the winner of the International A'Design 2014 Bronze Award in Milan (Furniture, Decorative items & Homeware Design Category), it can be colour coded and indexed, enabling anyone to find the knowledge they desire among the vast ocean of books. With a modern 'Metro' curve at one end, 'Guide' can be extended infinitely with extra racks at the other end to make a one sided library rack or even attached parallel to another rack to make it a two-sided rack, that can again be extended infinitely.

ADMINISTRATION AREA

Featherlite Furniture Solutions presents the ultimate administrative area furniture collection, meticulously crafted to elevate the functionality and style of educational institutions' administrative spaces. Recognizing the pivotal role of administrative areas in ensuring the smooth operation of educational institutions, Featherlite's furniture collection is designed with precision and care. At the core of Featherlite's administrative area furniture collection is a commitment to enhancing efficiency and comfort. Educational institutions rely on administrative spaces to manage various tasks, from admissions and records to faculty coordination and resource management. Featherlite's furniture is thoughtfully equipped with features such as well-organized storage solutions, ergonomic desks, and comfortable seating, all aimed at streamlining these essential administrative functions. Efficiency is paramount in educational administration, and Featherlite's furniture solutions are tailored to meet these demands. Ergonomic desks not only provide a comfortable workspace for administrative staff but also promote productivity by reducing strain and fatigue. Well-organized storage solutions ensure that important documents, records, and supplies are readily accessible, allowing administrative personnel to work seamlessly.

HIGH BACK CHAIRS

Site : WSAudiology, Bangalore | Products : Signature Series Table with Pinnacle Chair

Consider the boss' chair, a mute object. You may think, an insignificant agglomeration of steel springs and upholstery - only a spot to sit. Indeed, the seat picked by top officials is significantly more than that. It is a totem, an image of intensity, and it anticipates a charming, if subliminal, message. The C.E.O.'s chair is a very powerful tool for managing the impressions of visitors. It exemplifies personal style. Does it say hierarchy, or does it create the illusion of equality? Either way, the chair's symbolism is key. Our executive chairs are designed to exhibit seating that offer unparalleled levels of comfort and support. Most of these products of engineered working comfort are made in a range of models for all of the employees in the corporate empire - from the data processors to the C.E.O. so that one doesn't have to divine from the height of the back or the richness of the upholstery who the ultimate occupant might be.

ADMINISTRATION AREA

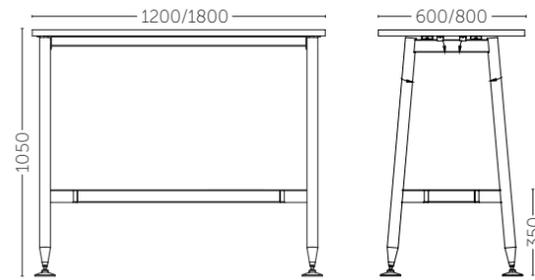

CAFETERIA

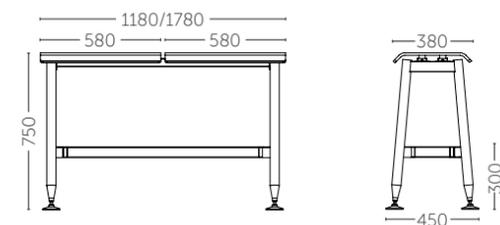

The transformation of a traditional education cafeteria into a versatile and inviting space, reminiscent of a trendy local coffee shop, is a remarkable shift in the way educational institutions approach campus design. Featherlite Furniture Solutions plays a pivotal role in achieving this metamorphosis. Featherlite recognizes the paramount importance of creating an environment that inspires students while ensuring their comfort and safety. In today's educational landscape, the cafeteria serves as much more than just a dining area; it's a dynamic hub of campus life. With Featherlite's innovative solutions, this space becomes a hub where students can meet, work alone, or collaborate seamlessly. Featherlite's extensive range of seating options ensures that students have comfortable and flexible choices. From ergonomic chairs to modular seating systems, the emphasis is on creating a welcoming atmosphere that encourages students to engage, whether it's in lively discussions, focused solo work, or group projects.

RECEPTION AREA

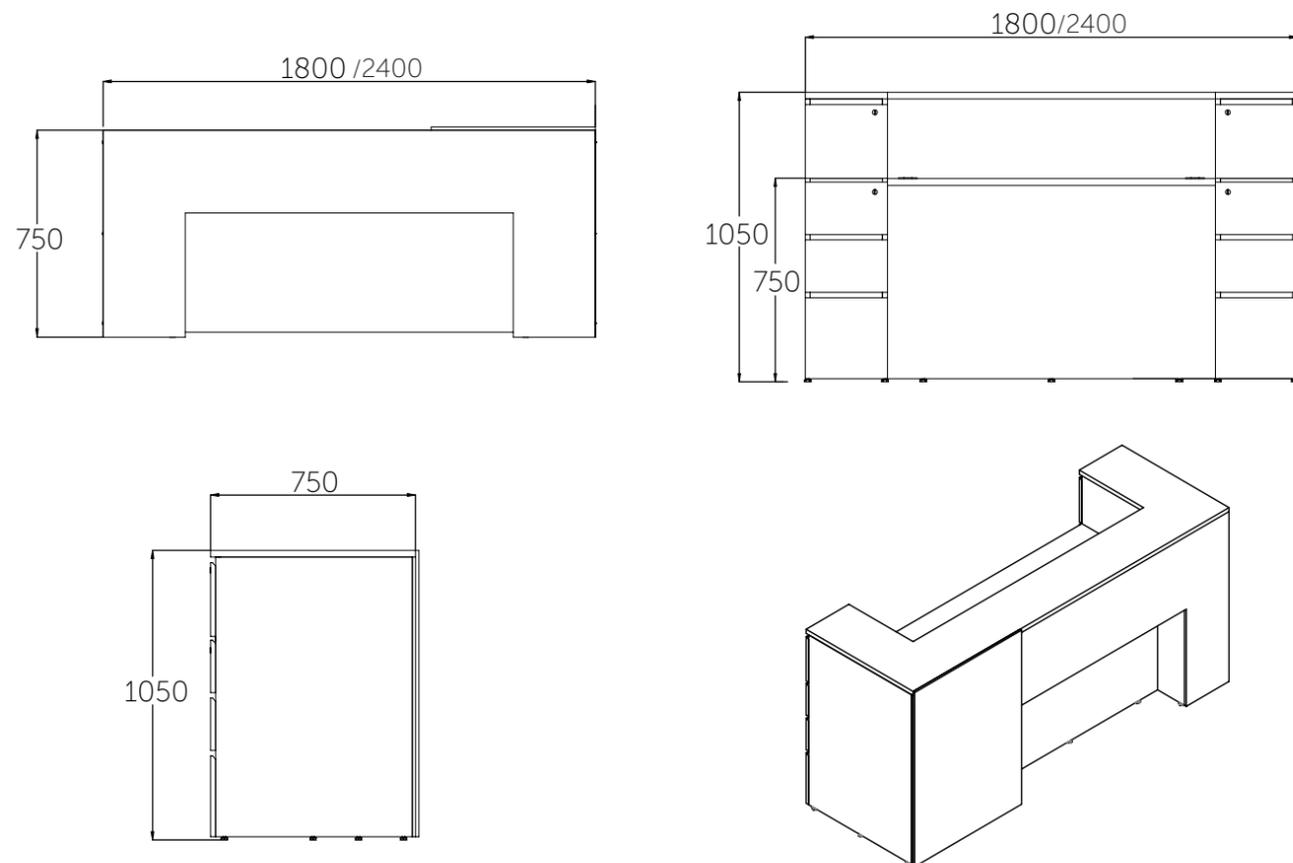

Creating an inviting and well-designed reception area is crucial in various settings, and schools and colleges are no exception. Featherlite Furniture Solutions recognizes the significance of reception areas in educational institutions and offers tailored furniture solutions to enhance these spaces. In a school or college environment, the reception area serves as a powerful representation of the institution's personality and culture. It's the first impression that greets visitors, parents, and even students and staff. Featherlite's expertise in designing reception spaces allows educational institutions to convey their ethos and values to everyone who walks through the door, fostering a sense of pride and belonging. First impressions hold considerable weight in human interaction, and in an educational context, they can set the tone for the entire experience. Featherlite's furniture solutions contribute to an ongoing uplift in the reception area, ensuring that it remains a dynamic and engaging space.
