Odyssey HB

Designed for Comfort

The Odyssey, the perfect chair for entering a new journey of long work or creative thinking. Designed with a medley fabric seat and high-density moulded foam, the Odyssey has a flexible nylon backrest wrapped in luxurious fabric and a multifunction synchronized mechanism that allows for four different locking positions. The seat slide provides additional under thigh support, ensuring enduring comfort.

Designed for Discussion

The Posture chair is bringing about a revolution in ergonomic seating, designed to promote healthy posture and enhance productivity. Crafted with precision, this chair is tailored for prolonged seating in discussion and board rooms.

The Posture chair features an ergonomically contoured seat and backrest that perfectly support the spine while its adjustable armrests and seat height ensure a personalized fit.

Aspire Conference

Aspire HB

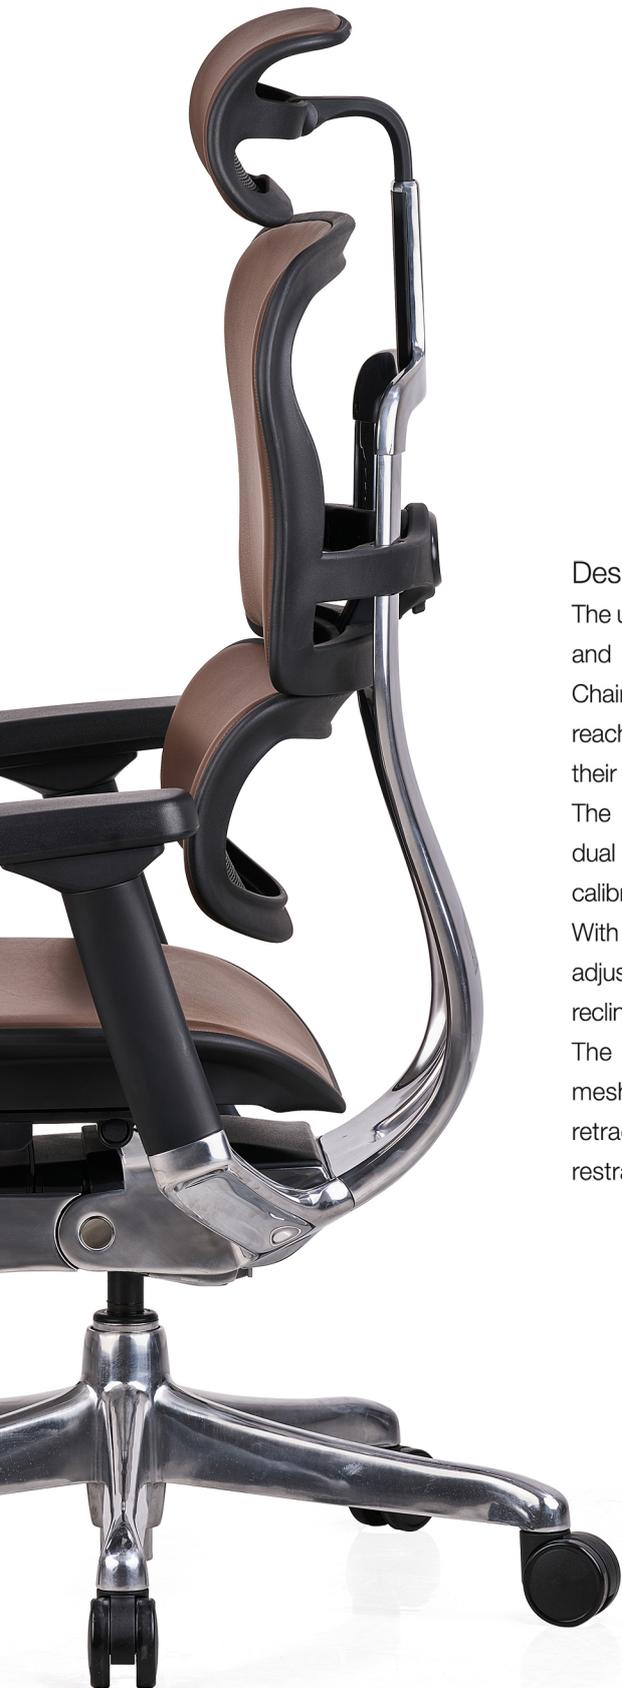

Designed to Support

The unique 'Tilt-limiter' mechanism of the Aspire chair restricts the range of motion of the chair's backrest, preventing the chair from tilting too far backwards.

The adjustable lumbar support and seat height options ensure a customized fit promoting healthy alignment.

With its sleek lines and contemporary design, the Featherlite Aspire chair catches instant attention.

Designed for Leadership

The ultimate symbol of refined craftsmanship and ergonomic excellence, The Pinnacle Chair is designed for leaders who aspire to reach the peak of productivity and style in their workspaces.

The Pinnacle uses a unique, independent dual back frame which can be individually calibrated to get the perfect seating posture. With a single lever control, the user can easily adjust seat depth, seat height, and angle of recline.

The Pinnacle is available in leather and mesh trims with optional features such as retractable leg support and adjustable head restraints.

Designed to Marvel

The Featherlite Meta Chair combines modern design with unmatched functionality, offering a seamless blend of comfort and style. With a sleek back, breathable OTE air mesh, and premium molded foam seat, it ensures all-day support.

Its intuitive tilt mechanism, fixed armrests, and smooth nylon castors make it perfect for dynamic workspaces.

Meta MB

Embrace MB

Designed to Embrace

Designed to envelop the user in a superior level of comfort and support, the Embrace chair is the perfect task chair. The Embrace features a sleek micro-linear mesh back and even without a lumbar support it gently cradles and supports the user's body throughout the day.

Enzo MB

Enzo HB

Designed for Refinement

Enzo's back frame is designed to give maximum support to the lower back and is equipped with the Magna-flex System that allows the lower back to push forward at three different levels providing three levels of adjustable back support.

It also comes with the weight-activated mechanism that adjusts seat-back tension according to the user's body weight.

Designed to Adapt

The Optima has a bio-morphic mesh design that offers an exceptional comfort and breathability while adapting to every contour of the user's body. It provides superior heat dissipation and ventilation throughout the day.

The intuitive controls for lumbar support, with adjustable depth and height, ensure a personalized fit. The flared back provides multifunctional support for all body types.
